GREELY'S REPORT.

The Chief Signal Officer Gives an Interesting Account of the Work in Alaska.

AMERICAN TELEGRAPH SYSTEM.

There Are 2,079 Miles of Cable, 1,439 of Land and 107 Miles of Wireless Lines.

Annual Business of the Seattle-Sitka Cable Estimated at \$25,000—Sixteen Islands of the Philippines Are Now Connected.

Washington, Nov. 14.—Gen. A. W. Greely, chief signal officer of the United States army, in his annual report gives an interesting account of the work performed by his corps in establishing an all-American telegraphic system in Alaska, saying the undertaking is unique in the annals of telegraphic engineering. The cables used in the Alaskan system would reach from New Foundland to Ireland and the land lines from Washington to Texas, there being 2,079 miles of cable, and 1,439 miles of land lines and 107 miles of wireless lines. Gen. Greely says the United States has brought Southeastern Alaska, the Yukon valley and the Behring straits region into telegraphic communication with the rest of the civilized world.

Gen. Greely says that after thorough consideration he decided to install material of American manufacture to be operated by American soldiers and to be laid by American ships except some cable instruments and machines. A selected force of men has been so trained that to-day the signal corps of the army is competent to operate in war emergency a submarine cable of any length.

"Repairs in Alaska are maintained," the report says, "by parties stationed at log cabins about 40 miles apart, one signal corps repair man with two assistants from the line of the army and a dog team being at each cabin. The men meet the terrible condition of hardship and privation uncomplainingly and with a fortitude of the American soldier."

The report says the Nome wireless station has daily and uninterruptedly transmitted the entire telegraphic business of the seaward peninsula, 5,000 words being exchanged in one afternoon between Safety Harbor and St. Michael. The signal corps of the army, he says, is now regularly operating the longest wireless section of any commercial telegraph system in the world. The annual business of the Seattle-Sitka cable is estimated at \$25,000 and during the year there has been spent \$56,935 for Alaskan telegrams handled by the signal corps.

Speaking of the Philippines, he says the 16 most important islands of the archipelago are now connected by cable, which lines, he adds, are recognized as indispensable both by the military and civil authorities.

During the year there has been collected and deposited in the insular treasury of the Philippines telegraph line receipts to the amount of \$58,675, there having been sent, including government business, all told more than two million messages, the net expense being \$325,901. The report says it is a matter of the utmost importance that signalling apparatus of suitable character be installed at the more important military defenses along the Atlantic and Pacific coast to permit of intercommunication between the army and the navy.

JAPAN'S GREAT LOSS.

Report That Gen. Kuroki Was Killed in Battle Confirmed.

Moscow, Nov. 14.—Nemirovich Danchenko, a Russian war correspondent, telegraphing from Mukden under Sunday's date, says the reports of the death of Gen. Kuroki are confirmed. According to his version a splinter of a shell struck Gen. Kuroki, tearing out a portion of his breast and abdomen. He died on October 4 at Liao Yang and his body was sent to Japan. A rumor is persistently circulated that a kinsman of the mikado, Slausandi, literally "Little Third Prince," has been appointed to succeed Gen. Kuroki, but the actual command of the army has been entrusted to Gen. Nodzu, who is reviewing operations.

Nine Killed in a Wreck. Salt Lake City, Nov. 14.—Nine persons were killed and 10 or 11 injured, two seriously, in a head-on collision between a Union Pacific west-bound passenger train and an east-bound extra freight train west of Azusa, Wyo.

A FIERCE HURRICANE.

New York City Entirely Cut Off From the South and West.

New York, Nov. 14.—New York was entirely cut off from the south and west Sunday night by a fierce hurricane accompanied by rain and snow which is sweeping the Atlantic coast. Starting from Florida Sunday night the storm of wind and rain has come up the coast at almost cyclonic speed. Early Sunday morning it was central off Cape Hatteras, although its ever-gathering force was felt far to the northward.

Rain began falling in New York at 5 a. m. and early in the morning changed to a wet snow. The wind, which had been blowing moderately, veered to the southeast and shortly assumed hurricane proportions. At 6 o'clock Sunday night the local weather bureau noted a velocity of 42 miles an hour which increased to 48 miles at 8:30 o'clock. That speed kept up for several hours. At 10 o'clock the storm center was at Block Island, where the barometer showed a pressure of 26.62 inches, with the wind blowing 76 miles an hour. At Nantucket the barometer was a trifle higher and the wind 60 miles.

Wire service out of New York was tied up more effectually Sunday night than at any other time since the blizzard of '88. The Western Union and Postal Telegraph Cos. have no direct communication with cities further south than Baltimore and all western points are cut off.

The Postal has been cabling some of its most urgent messages to Canada, N. S., from which point they are wired to Montreal and thence forwarded to Chicago over Canadian Pacific wires.

THE JACKSON BROTHERS.

Hunger and Cold Compelled Them to Surrender to the Authorities.

Charleston, W. Va., Nov. 14.—Ed and George Jackson, the two brothers of Montgomery on whose heads a price had been set by the state and county authorities, surrendered themselves Sunday morning, and are now in the county jail at Charleston. The men had been secreted in an abandoned coal mine just outside Montgomery, and were driven to surrender by hunger and cold. Word was sent to Montgomery by a mountaineer and on the arrival of Squire Davis and a constable the men gave themselves up without a struggle. Since the shooting of Sheriff Daniel Thursday and their disappearance, the men spent their time in the coal mine secreted from their pursuers and the bloodhounds which were put on their track. During this time they were without food and drink. The officials took the men around the town and by a round-about way brought the prisoners to Charleston to avoid a riot or lynching which would surely have occurred had the citizens of Montgomery discovered that the Jackson brothers had been apprehended. There are now six prisoners implicated in the Montgomery shootings in the Charleston jail. It is not considered safe to hold a hearing at the present time.

HEAVY, WET SNOW.

For Hours Washington Was Cut Off From Outside Communication.

Washington, Nov. 14.—As the result of a snow storm which set in here shortly before 11 o'clock Sunday morning, Washington Sunday night for several hours was completely cut off from telegraphic and telephonic communication with the outside world. Later a wire was obtained west, but none north, south or east. Both the Western Union and the Postal Telegraph Cos. report severe damage to their wires and their inability to get any messages through. Inquiry at the railway stations developed the fact that trains were departing on schedule time, but that incoming trains were three or more hours late.

The snowfall of Sunday was the first of the season, several inches covering the ground. It started with a drizzling rain which later turned into a heavy, wet snow. The local telephone service was seriously hampered in its service.

Two Duck Hunters Drowned.

O'Neill, Neb., Nov. 14.—William Balfour and Iver Johnson, both of Omaha, were drowned in Goose Lake while hunting ducks. The men were in a boat which was too heavily loaded and when it dipped slightly the men were thrown into the water.

Philadelphia, Nov. 14.—Bedridden and blind and actually shriveled by the years that have passed over her head, Mrs. Mary McDonald filled and lighted her little black pipe Saturday and contentedly smoked on this, her 134th birthday.

Newport, Ky., Nov. 14.—The funeral of James Knobloch, former superintendent of public works, who died at Piedmont, W. Va., Friday, was held Sunday afternoon.

ORDNANCE BUREAU

There is a Lack of Officers and the Naval Gun Factory is Overtaxed.

ADM. MASON'S ANNUAL REPORT.

For Armament of All Vessels Building 483 Three Inch Fifty Caliber Guns Are Required.

Smokeless Powder Received Considerable Attention By the Bureau in the Last Year—Output of Factories Are Inadequate.

Washington, Nov. 14.—Lack of officers for ordnance duty and the overtaxing of the naval gun factory at Washington continue to be the two most serious problems facing the bureau of ordnance, according to the annual report of Rr. Adm. Newton E. Mason, chief of ordnance, just approved by Secretary Morton. The report says a plan for reorganization of the work of the bureau will be submitted later with a view to increasing the supply of ordnance experts. Of the rush of work at the naval gun factory Adm. Mason says:

"The naval gun factory has been running night and day at full capacity and although good progress has been made, the congested condition of all work there gives assurance that its capacity is being overtaxed and must, unless this capacity is materially increased, eventually result in failure to supply the ordnance outfits of ships in time to meet the demands of the contractors."

Of the 52 12-inch guns required, the 20 for the Virginia class have been completed, six of the 45 caliber guns are being machined and the forgings for 22 of the remaining have been ordered and are being delivered. Nine 10-inch guns are under construction.

Of the 128 8-inch guns required, 24 40-caliber guns for the Pennsylvania class of armored cruisers are nearly completed. The naval gun factory will make 16 of the 88 7-inch guns required, the others having been contracted for by private companies. Of the 250 6-inch 50-caliber guns required, those for the Pennsylvania class of armored cruisers have been completed and 144 guns required for the battleships of the Virginia class and the armored cruisers of the Tennessee and St. Louis classes are being manufactured.

For the armament of all vessels building, 483 3-inch 50-caliber guns are required. One hundred and twenty-five of these have been provided for and further orders have been suspended pending the development of an efficient semi-automatic gun of this caliber. A vast amount of work has also been done by the gun factory in alterations and repairs to ordnance material. Estimates for the improvement of the gun factory and increase of the plant are renewed.

Smokeless powder has received considerable attention by the bureau in the last year. The report says the normal output of private powder factories and of the government factories at Indian Head and Newport is not greater than is required to meet the demands of the service target practice and fill the outfits of the newly commissioned ships.

STORM IN PHILADELPHIA.

It Seriously Interfered With Telegraph and Telephone Communication.

Philadelphia, Nov. 14.—The southern storm which began here about 5 a. m. Sunday seriously interfered with telegraphic and telephone communication in this vicinity. The telegraph companies report that wires are down in nearly all directions, excepting in New York and Baltimore, communication with the interior of the state is entirely cut off.

Beyond the interruption of telegraph and telephone service the storm did little damage here. Rain, sleet and snow fell all day, with a maximum wind velocity of 41 miles. Late Sunday night the storm continued, although the wind had fallen to 36 miles an hour. The total precipitation up to 8 p. m. when the last observation was made by the United States weather bureau here, was 1.83. The weather bureau figures show that if the snow had not immediately melted it would have reached a depth of eight inches.

Conductor Seriously Injured.

Covington, Ky., Nov. 14.—Charles J. Nalls, passenger conductor on the C. & O. railroad, had a narrow escape from being killed at South Ripley, Ky. As the train neared the station he was standing on the steps of a coach, when suddenly the steps were torn away from under his feet by a projecting rail and he was hurled 40 feet and rendered unconscious.

DOUBLE SUICIDE.

Two Sisters Take Their Lives By Inhaling Illuminating Gas.

New York, Nov. 14.—Locked in each other's arms on the bare floor of a dismantled flat in East 51st street from which they had been dispossessed on Friday, two sisters, Louise and Valerie Atel, 44 and 38 years old respectively, were found dead Sunday. In the mouth of each was a rubber tube which connected with the chandelier. In the hand of the younger woman was an open letter, written in German, which stated that the sisters had decided to die together after talking over the matter for a week and requesting that they be buried in one grave. "For this consideration," the letter continued, "we give our bodies for the benefit of medical science."

The two women failed to pay the rent for the flat they occupied and on Friday were dispossessed. At the same time their furniture, which they had bought from an installment company, had been taken from them and they had been given permission by the janitor to remain in the flat over Sunday.

ADOLPH WEBBER ARRESTED.

Charged With the Murder of His Parents, Sister and Brother.

Auburn, Cal., Nov. 14.—Adolph Webber has been placed under arrest on the charge of murdering his parents, sister and young brother last Thursday night, and with having set the family residence on fire afterwards to conceal the crime. Webber took his arrest coolly. The arrest took place immediately after he left the witness stand and after he had reluctantly answered the questions propounded to him by Coroner Shepard, the district attorney and several of the jurymen.

Will Retire From the Turf.

Lexington, Ky., Nov. 14.—W. L. Muir, has consigned his racing stable, consisting of Ethel Day, Herilda, Watch Guard, Still Whispering, Shining Star, Roscoe and Whinton to a thoroughbred sale here next week, and will retire from the turf.

Cold Wave Struck Owingsville.

Owingsville, Ky., Nov. 14.—A cold wave struck this section Sunday afternoon and a blizzard of snow, accompanied by high wind, raged for some time. Much of the snow melted almost as soon as it fell. This is the first snow of the season.

Keene's String Shipped.

Lexington, Ky., Nov. 14.—The youngsters that are to carry the Keene colors at the New Orleans races in the early spring have left here for the Crescent City. The bunch consisted of ten yearlings and three two-year-olds.

William Ryan Is Dead.

Louisville, Ky., Nov. 14.—William Ryan, aged 76, known to all Kentucky masons as "Daddy" and a past grand master of the Kentucky grand lodge, died Sunday night of pneumonia. He was a 32d degree Scottish Rite Mason.

Snow in Lexington.

Lexington, Ky., Nov. 14.—The first snow of the season fell over this city Sunday. The fall was not heavy, but sufficient to cover the ground. During the storm the wind blew with the fury of a hurricane.

Louisville Figures.

Louisville, Ky., Nov. 14.—The official vote of the Fifth district is: For president: Parker, 22,592; Roosevelt, 21,206. For congress: Sherley, dem., 22,727; Owens, rep., 22,074.

STRUCK ON A ROCK.

A Schooner Went Ashore in a Severe Northeast Gale on the Island of Naushen.

THOUGHT ALL HANDS WERE LOST.

The Vessel Is in a Particularly Exposed Condition and the Chance of Saving Her is Slight.

The Seas Were So High That Nothing But a Surfboat Could Possibly Escape Almost Instant Destruction.

Woods Hole, Mass., Nov. 14.—The two-masted schooner Ercularius, Capt. Nason, of Rockland, Me., went ashore in the severe northwest gale shortly before dark Sunday night about three-quarters of a mile west of Tarpaulin Cove on the Island of Naushen.

At sunset the seas were breaking over the craft masthead high. No trace of the crew has been found and fears are entertained for their safety. The vessel is in a particularly exposed condition and the chances of her being saved are slight.

Keeper Carson, of the Tarpaulin Cove Lighthouse, and a man named Robinson saw the schooner when she struck. It was just before dark and a terrific gale was blowing. The schooner was coming through Vineyard sound from the eastward and was proceeding under her foresail, the gale being too fierce to permit more canvass being carried. The schooner tacked and tried to work into the cove for anchorage, but the wind bore her off, and as she was swung away she struck with a crash upon a ledge of rock no more than 100 yards from the lighthouse. Carson and Robinson were unable to render any assistance to the men on board of the schooner. The crew numbered four men and all were plainly seen when the vessel struck, but darkness set in almost immediately and nothing more was seen of the men or the vessel.

Keeper Carson had no boat that could be launched, and besides, the seas were so high that nothing but a surfboat could possibly escape almost instant destruction. No lights were shown from the schooner after she struck and no answer was given to the frequent hailings of Carson and Robinson. According to Keeper Carson it would mean certain death for the ill-fated men on board the vessel to attempt to reach the shore in a small boat.

At 9 o'clock Sunday night it was feared that all on board had perished. The seas were breaking over the craft and it was not believed that she would hold together until daylight. She struck in a particularly exposed position and no vessel could be expected to stand the terrible pounding on the jagged rocks to which she was subjected.

Another Rockland schooner, the Nautilus, lying before the gale, anchored in a perilous position near the new Dog Bar breakwater, Gloucester harbor, and will be a wreck, it is believed, before morning. Her crew was saved through the efforts of the life saving crews from the Dollys light station. The schooner Bessie Parker, anchored at Vineyard Haven, parted her anchor chains and drifted ashore, but she can be towed, it is thought, when the storm has subsided.

TWO STORMS MEET.

One From Florida and the Other From the Great Lakes.

Baltimore, Nov. 14.—It is apparent from the meager and fragmentary reports obtainable by the local weather bureau that the two storms—one from Florida, the other from the great lakes and Canada—met a few miles south of Washington at about 3 o'clock Sunday afternoon. Rain, wind, snow and sleet continued until a late hour Sunday night, causing an almost complete prostration of the telegraph and telephone wires south of Baltimore. The Western Union Co. officials managed to pick out a few wires to Philadelphia and New York, but to the northward and southward there has been no communication since 4 o'clock Sunday afternoon.

Traffic Blocked By Snow.

York, Pa., Nov. 14.—Telephone and telegraphic wires are down, trolley cars are stalled, railway trains are greatly delayed and there is a general suspension of traffic in this city and throughout York county as the result of the heavy snow.

The Vote of Carter County.

Grayson, Ky., Nov. 14.—The official vote of Carter county gives: Roosevelt, 2,416; Parker, 1,439. For congress: Bennett, rep., 2,389; Kehoe, dem., 1,469.

WEATHER FORECAST.

Fair to-night; Tuesday fair and warmer.

UNABLE to get in Congress through the ballot-box, Mr. Bennett tries to force himself in with the help of a bunch of lawyers and a lot of belated returns. Suppose Mr. Kehoe had employed the same tactics, wouldn't there have been an awful Republican howl!

MANY changes are expected in the ranks of Kentucky federal office holders when President Roosevelt's second term begins. The word is being passed along now that the eight-year men who were appointed at the beginning of President McKinley's first term will be fired out to give the other fellows a chance at the pie.

THE editor of the Dover Messenger worked overtime during the campaign in an effort to produce some editorial paragraphs that would invite comment. Up to the present time, however, we haven't noticed that our exchanges are overloaded with Curran's Campaign Cuteness. What Artie doesn't know about journalism would fill a very large book.

IN his zeal to provide a soft berth for certain erratic newspapermen, the "prom" editor of the BULLETIN made this generous offer a few days before the late election:

"I old Mason don't roll up a good round thousand or more majority for her favorite candidate (Kehoe), we start a fund early Wednesday morning to establish a Home For Incurable Idiots.

The county having made good in great shape, of course we are released from our obligation, but if the editor of the Dover Messenger continues to "take on" over his disappointment, we'll have to start the fund going anyhow.

IRREGULARITIES IN LEWIS.

Four days after the election the "vote" of Grassy precinct in Lewis County was handed into the County Clerk's office at Vanceburg by the "boys" loaded up to the guards with a majority of 106 for Bennett for Congress. No doubt if they thought they needed more they would have "Sed" so. Here is the law on the subject:

"Within two days next after an election the Sheriff shall deposit with the Clerk of the County Court the returns from the different precincts."

What are the laws made for, anyhow, if they are not to be obeyed! If Grassy is permitted to trot in an inflated vote any time to suit herself, the people might just as well quit voting and allow the Returning Boards to guess on majorities.

HOW IT LOOKS NOW.

On the Face of the Returns Congressman Kehoe Has a Majority.

When the official vote of Lewis County was canvassed Friday the officers of Grassy precinct failed to certify that Judge Bennett received any votes in that precinct, but Republicans claim he received 168 votes. On the face of the official returns, therefore, Bennett's majority is cut down to 689.

A mandamus suit was filed and served on the commissioners to compel them to include the Grange City precinct in the count, and the matter will come up in the Circuit Court next January.

The returns from Fleming showed a plurality of only 47 for Kehoe, but the throwing out of a precinct owing to alleged irregularities gives Kehoe 107 majority.

Protracted Meeting at Beasley.

A protracted meeting began at Beasley Creek Church yesterday. The regular minister Mr. Kyle Brooks will be assisted by Evangelist J. T. McKiesick of Waco, Texas.

Mr. McKiesick is an evangelist of rare power and has had some remarkable success in his chosen field. He held a meeting at Anna, Texas, during the past summer that resulted in 119 additions. He assisted Mr. Brooks in a nine-days' meeting at Mt. Zion several weeks ago that resulted in forty-seven additions.

The church at Beasley Creek is in splendid condition for a revival and has been looking forward to this meeting for several weeks.

There will be two services each day, one in the morning at 10:30 and one at 7:30 in the evening.

CONFEDERATE VETERANS

Annual Reunion and Dedication of Addition to the Home at Pewee Valley.

Nearly three thousand people, from all parts of the State, gathered at Pewee Valley Friday to attend the State reunion of the Confederates and the dedication of the new infirmary, recently completed at a cost of \$24,000.

The exercises were short, consisting mainly of the report of Col. Bennett H. Young, general commanding the Kentucky division, and the election of brigade commanders. Col. Young's report, covering the proceedings of the division during the past year, was read.

Brief addresses were made by commanders of the four brigades of the Kentucky division. These short talks all touched upon the Pewee Valley Home, and were loud in their praise of the institution and its progress and management. The speeches were followed by the playing of "The Bonny Blue Flag," which created another round of applause, which lasted for several minutes.

Col. Bennett H. Young, President of the Board of Trustees of the Home, and Commander of the Kentucky division, then presented the new building to the State on behalf of the institution. The presentation speech, though short, was pointed and interesting, and was received with applause at frequent intervals.

The new building is handsome, commodious, convenient and comfortable, equipped throughout with everything for the health, pleasure and convenience of its occupants. Its purpose is to furnish an up-to-date infirmary and additional dormitory room for the home. There are about eighty rooms under the new roof, including wards, dormitory rooms, library, a well-equipped and scientifically arranged operating room, etc. It was erected at a cost of about \$24,000 and will be furnished at once and occupied.

Colonel Craddock of Paris has endowed a room in the hospital with the pension money which he received as a veteran of the Mexican war. He is one of the few men now living who fought in both the Mexican and Civil wars, and is one of the best known men in Central Kentucky. The room is to be known as the "Colonel J. G. Craddock Room."

Nearly every town in the State was represented by either old soldiers or relatives of Confederates.

The time and place for the next reunion were, on a unanimously carried motion, left to the discretion of the division staff, and will not be announced until next fall.

ECHO OF A FEUD.

Elder Jas. Smith Assassinated While at the Supper Table.

Owingsville, Ky., Nov. 14.—Reports received here state that Elder James Smith, aged 70, was assassinated as he sat at supper in his home at Spring Fork, Breathitt county. The fatal shot was fired by parties concealed in heavy underbrush 30 feet from Smith's house. Winchester rifles were used.

Smith is said to have been a relative of "Bad" Tom Smith, who was a leader in the terrible French-Eversole feudal war. It is stated that Elder Smith was connected with many mountain feuds. Officers are searching for the assassin.

A reward of \$200 was offered for the arrest and conviction of the person who burned the school house at Donerail.

The Fayette County Fiscal Court appropriated \$5,000 for the erection of a new hospital at the County Infirmary, and for other needed improvements.

A Hot Water Cure.

We all know what pain is—and yet we don't. We know what its sensations are, and that it can be cured by two agents—drugs and heat. If heat will answer, it is the cheaper, of course. Drugging pain may be a temporary relief only. If heat helps at all it is also curing.

Hot Water Bags

are a potent aid in a hundred ills. Emergencies and pain will come where nothing will answer so well. Can be applied anywhere. Keep warm for hours. We have all sizes of the best kinds at prices just as comfortable as the bags.
